

We here at Catskill Hudson Bank understand and sympathize with the financial pressures that some of our customers who provide essential government services may be facing, and we want to help. Until there is an end to the government shutdown and employees receive their back pay we will make every effort to assist our customers who are experiencing financial hardship due to the shutdown. While we cannot reopen the government we can and will provide help to our customers in need. Please contact either your branch manager or contact us at (845) 334-0055.
